

SolarWinds Orion® – Modular Training Manual

Server and Application Monitor v6

Brett D. Organ

Table of Contents

Introduction	3
Installing SAM.....	9
SAM Administrative Settings.....	17
Creating and Administering Applications	27
SAM on the Orion Web	73
SAM Reports.....	91
SAM Alerts.....	99
Lab Exercises.....	115

Introduction

Section Contents

Introduction	3
Introduction to Server and Application Monitor.....	4
System Requirements	5
SAM and System Performance	6
How Server and Application Monitor Works	6
Notes.....	8

Installing SAM

Installing SAM	9
Purpose	10
Licensing Server and Application Monitor	10
Installing Server and Application Monitor	10
Activating the SAM License	11
Configuration Wizard	15
Installing SAM with Orion NPM Additional Pollers	16

SAM Administrative Settings

SAM Administrative Settings	17
SAM-Specific Admin Settings	18
Credentials Library	19
Adding credentials to the Credentials Library	19
Data & Database Settings	20
SAM License Summary	21
General Admin Settings	22
Node Management	22
Application Web Views	24
License Details	25
Notes	26

Creating and Administering Applications

Creating and Administering Applications	27
Purpose	28
Monitors, Applications and Templates	28
Component Monitors	28
Applications	28
Templates	28
The Process of Creating Monitors and Applications.....	29
Assigning an Existing Application Template	31
Creating a New Template	34
Designing a New Monitor, Application or Template.....	36
Scanning Devices for Running Applications	41
Operations with Components, Applications and Templates.....	46
Managing Component Monitors	46
Editing an Individual Component Monitor	48
Editing Individual Applications	49
Automatic Calculation of Baseline Thresholds.....	50
Copying Application Templates.....	52
Exporting and Importing Application Templates	53
Deleting an Application Template	53
Pre-Defined Templates – Some Usage Examples	54
AppInsight for SQL.....	54
DNS User Experience	55
Exchange 2007-2010 Common Performance Counters	56
Errors in Application Event Log	57
Exchange 2007 Outlook Web Access (OWA) Form Login.....	57
FTP User Experience	58
Internet Information Services (IIS)	58
HTTP Form Login.....	60
Orion Server	60
POP3 Round Trip Email.....	64
SQL Server 2008 Analysis Services	64
Windows Server 2003-2012 Services and Counters.....	69
Notes.....	72

SAM on the Orion Web

SAM on the Orion Web	73
Purpose	74
Configuring SAM Node Resources on a Web View	74
Application Summary View Resources	75
Application Details View Resources	76
Application Component Details view	77
Customizing Application Summary Views	78
How Summary Views Are Filtered	79
Creating a Custom Filtered Application View	79
User Accounts and SAM Views	80
Assigning SAM Views to a User Account	80
Hardware Health Monitoring with SAM	81
Asset Inventory with SAM	82
Real-Time Process and Service Monitoring with SAM	85
Real Time Event Viewing with SAM	88
Notes	90

SAM Reports

SAM Reports.....	91
Purpose	92
Creating Application Reports.....	92
Viewing SAM Reports in Report Writer.....	93
The Advanced SQL option.....	95
SAM Reports on the Orion Website.....	96
Notes.....	98

SAM Alerts

SAM Alerts.....	99
Purpose	100
Types of SAM-Specific Alerts	100
Component Alerting Properties	100
Application Alerting Properties	102
SAM Alert variables	103
Configuring an Advanced SAM Alert	106
Trigger Condition tab.....	107
Review of Condition types.....	108
Alerts on the Orion Website	110
Alerts as a View Resource	111
Acknowledging Active Alerts	111
Real Time Process Explorer Alerts.....	112
Notes.....	114

Lab Exercises

Lab Exercises	115
SAM Discovery Lab	116
Components, Applications and Templates.....	117
Inheritance and SAM	118
SAM on the Orion Web Console.....	119
SAM Reports.....	121
SAM Alerts	122
